

What bucket filling means and
does to me. ①
by Hannah

My name is ~~Hannah~~ Hannah-Grace and I am ^{is old and} going to tell you about what ~~that~~ bucket filling really means and does to me. Well first of all I get bullied continuously nearly every single day and it really hurts me and my feelings, so when I stop feeling emotional and getting angry about it instead of taking my anger out on other people I'll go to one of my friends and tell them my problems and they'll help me out with it all, and they'll start playing with me and before I knew it I forgot all about what had happened and I couldn't even remember what happened because I was having so much fun with them. My bucket was finally full and I am going to keep it full, by helping other people that needs help with filling their bucket and I'll ~~all~~ always be there for others if they need it.

It would really mean a lot to me if ⁽²⁾
you know what I'm going through
because then I won't be the only
one with the problem. That's what bucket
filling really means and does to me.
When I read the bucket book it
reminds me about what my friend
have done for me, when we get
the bucket book out to read I just
get out of my mind crazy inside
because I like the memory of my
~~friend~~ friends helping me feel better.

I hope you enjoyed my

~~story~~ story about what
bucket filling really means and
does to ~~me~~ me.

P.S. I ♥ the
~~but~~ bucket book
😊 ♥
