

What bucket filling
means to me and my
class.

Bucket filling is an awesome thing in my class because when some one sends you a nice thing you feel happy ~~but if som~~ because you ~~to~~ ^{know} that person cares for you. In the play ground if some one is being a bully to you or some one like the person that gave you the note you will want ~~to~~ to stand up for them because you care to. ~~att~~ Also ~~bucket~~ bucket filling to me feels nice and in shore it feels nice to other people.

I think that bucket filling is: ~~a thing to get peop~~
1, a thing to stop bullies, 2, so everyone can be happy, 3, so people are confident in doing things with there friends and family. ~~so~~ and that's
What I think bucket filling means.
~~What I think~~
